- Sass
- JavaScript
- Jquery
- Vue js
- Vue X
- PHP
- Laravel
- WordPress

Education

2021 - IT Park
Frondend programming

2022 IT Live Academiy
Backend programming

About Me

I am a Full Stack developer. I have also participated in large projects and startups in my field. I create the Front-end part of the website using Html, CSS and Bootstrap Vue js. But I am interested in Back-end. I create Back-end with Php and Laravel. Because I like to think about challenging exercises. I have implemented projects in HTML CSS JavaScript in Frontend and PHP Laravel in Vue js Backend.

PROFESSIONAL EXPERIENCE

We developed a news site with our team. We had a good experience at that site. I developed the Becked part of this site in PHP Laravel.
